Diana, we are in receipt of this request and will provide a TCP by end of the day as requested.

We will call you or Margaret if we have any questions.

After discussing with General Counsel, TxDOT will require from your company a traffic control plan for safely getting your trucks in and out of the driveway located on FM 1209. I need to have this by the end of the day. If we do not receive this traffic control plan then we have been directed to barricade the driveway on FM 1209 from further use until the traffic control plan is submitted.
